Three of my top personal goals include learning to paddleboard, finishing my DNP in 2017 and becoming a more active member in my community. I inspire to improve Nurse Anesthesia practice both in the state of Hawaii and nationally. I am active member of the AANA, contributing to the advocacy of independent CRNA practice in the Veteran Administration's healthcare system. With your vote, I hope to provide meaningful change and improvement that can benefit our practice and delivery of safe patient care.
